What is Varchasva ?

A builder-focused summit bringing together students, developers, designers, founders, and innovators — united by one goal: execution.
Varchasva is where ideas meet action.

- Builder Networking
- Project Showcases
- Innovation Challenges
- Practical Tech Discussions

Why Does It Exist?

Varchasva bridges this gap.

The Challenges

- *Lack of collaboration across institutions*
- *Limited builder-focused opportunities*
- *Fragmented innovation ecosystem*
- *Need for execution-oriented platforms*

The Gap

The builder ecosystem in Noida lacks a unified platform where students, developers, and founders can collaborate, build, and grow together. Varchasva exists to change that.

Who Should Attend?

01 School Students

02 College Students

03 Developers

04 Designers

05 Founders

06 Innovators

07 Builders

Speaker Sessions & Networking

Industry experts and builders share real insights on technology, product, and execution. Deep-dive workshops followed by structured networking to forge meaningful connections across institutions.

Showcases & Innovation Challenges

Teams present live projects to peers and mentors. Compete in innovation challenges, unlock collaboration opportunities, and gain visibility within the builder ecosystem.

What To Expect

Five high-impact pillars designed to inspire, connect, and accelerate builders. Every session, challenge, and showcase is crafted to deliver real value — from learning to execution.

Event Journey

Morning

Opening & Keynotes

Welcome address, keynote speakers, and vision-setting for the day ahead.

Afternoon

Innovation Challenges

Team-based innovation sprints, problem-solving challenges, and live project building.

Mid-Day

Peer networking, and cross-institution collaboration sessions.

Evening

Showcases, Awards & Closing

Project demos, recognition of top builders, partner spotlights, and closing ceremony.

Expected Outcomes

VARCHASVA 2026 is designed to create measurable, lasting impact across the builder ecosystem — connecting institutions, experts, and innovators under one roof.

Multi-institution participation, industry expert engagement, and a growing builder network form the core pillars of our expected impact at this summit.

100+

expected participants

Participants across schools, colleges, and independent builder communities — all under one roof.

5+

Impact Areas

New Collaborations · Builder Network Growth · Industry Expert Access · Multi-Institution Reach

Brand Visibility & Reach

Put your brand in front of 100–150 developers, designers, and founders. Featured across all event materials, digital channels, and community platforms for maximum exposure.

Talent Access & Engagement

Connect directly with skilled builders and innovators. Identify top talent, run challenges, and build long-term associations with the next generation of tech leaders.

Why Partner With Us?

Align your brand with the builders of tomorrow. Gain direct access to talent, communities, and the innovation ecosystem shaping the future.

About Us

Bits&Bytes Noida is the official Noida chapter of the bits&bytes network — a community built for builders, developers, designers, and founders who want to create, collaborate, and ship real work.

We drive tech initiatives, builder programs, and innovation challenges that connect students and creators across institutions in the Noida ecosystem.

Ways To Collaborate

Choose the partnership model that aligns with your brand. Every category offers direct access to builders, developers, and innovators at VARCHASVA 2026.

Venue Partner

Provide the space that powers the summit. Your venue becomes the stage for keynotes, workshops, showcases, and networking — front and center throughout the event.

Knowledge Partner

Contribute expertise, mentorship, and resources. Co-present sessions, and position your brand as a thought leader among the next generation of builders.
